

Table Care Guide

Instructions to store and maintain linenless tables

HELPFUL HINTS

FOR PROTECTING YOUR FURNITURE

- Lift objects instead of sliding them on table surface.
- Wipe spills off of table surface immediately.
- Always pick the table up to move it around. Never drag, scoot or slide the table.
- Always make sure the legs are locked into place while setting the tables up.
- Always make sure the locking sleeves are disengaged when folding the legs up to take the table down.
- Always stack tables upright on carpet or cardboard to protect the edges from scratching.
- Use felt pads on the bottoms of equipment and electronics.
- Avoid contact with doorways and/or walls with corners or sides of tables.
- Always use a heat shield, hot pad or trivet when using hot pans and heat producing appliances.
- Invest in GHD Table Trucks to store and protect your tables.
- Never store dirty tables.
